There is a sum of only Rs 2000 provided in the Budget for this purpose & the Ex. Engr Shr assures that that sum is not exceeded. The work shr be so regulated that those D.C. will admit of but thus shr have the largest amount to spend, & spend it as economically as possible.

A separate sum of Rs 2000 should be made for this purpose in the Current Years Budget. The cost of this & all other Plantations should be met from that allocation.

Enclosure

Has the honor to state that the undersigned inspected this morning the Revenue Plantation of Parapanagrahar in the Bangalore taluk. As already brought to the Deputy Commissioner's notice the Sandal trees and plants are in a declining condition evidently owing to the leaves having been grazed by goats. The Toddy Date seeds dibbled in the latter part of last year, have germinated fairly. This promises to become a very good date grove. Instructions have been personally given to the Taluk officials to cause the whole of the vacant

spots

spots in the above Plantation to be dibbled with date seeds as soon as the rains from the South-West Monsoon begin this year. Requests to be informed what quantity of date seeds is required for the purpose.

2. Beg to suggest that Palmyra seeds may be collected at Thudlur and Molur near Chemmapatam at the present season and that they may be planted all along the ditch of the above Plantation.

3. The Plantation requires an aloe hedge all around. Requests that aloes may also be planted on the ridges along the ditch.

4. The Deputy Commissioner will also be good enough to submit a recommendation for the employment of a watcher for the Plantation.

Sir,

Enclosure

With reference to your No: 717-24/41 dated 9th August 1895, and No: 1395 dated 17th September 1895, forwarding copy of Government order No: 1555-6/Ex: 46 dated 6th August 1895, I have the honor to state, that the only date plantation for which an allowance has to be paid this year for watching is the one at Parapana Agrahara in the Bangalore Taluk and a Sum of Rupees 60/- is required for the purpose. No allowance need be paid this year for watching the other plantations in the District.

2. In connexion with the plantation

at Parapana Agrahara, it may be noted that the plantation is 77 acres and 35 guntas in extent and is situated at some distance from the village. About 16 acres have been planted up to now and the remaining area has yet to be planted. It contains about 3500 saplings. The land at present is not enclosed by a hedge and as the adjoining tracts are the grazing ground for the cattle belonging to three or four adjacent villages, preventive measures are called for against their inroads.

3. Under these circumstances, a permanent watcher is required to be employed. He will have full work in planting up the remaining area, removing the weeds preventing cattle from straying in and in otherwise attending to the growth of the plants

4. Advantages help from topics etc of the neighbouring villages will not prove in the end as effective and therefore economical, as a Special watchman.

watchman; for the village menials cannot be secured exclusively for this work, and their interest in it cannot but be perfunctory and fitful.

5. I therefore request that you will be so good as to obtain sanction of the Government for entertaining a permanent watcher on rupees 5/- per month for the aforesaid date plantation.
